

## BOTTLE CLOSURES AND DECORATION

### PLASTIC SCREW CAPS (MCA2)

These caps are specially made for Vigo, for application to 28mm (MCA3) thread glass bottles. They can easily be applied by hand or with a simple pneumatic tool. There is a 'tamper evident' breakaway band for greater customer confidence and security. The caps have a non-PVC compound liner seal for in-bottle pasteurisation and hot-fill pasteurised juice and cider. Available in several colours in boxes of 3600.

Pneumatic tool for tightening caps see page 46.

### ROPP CAPS

28 x 15mm aluminium caps for use with MCA3 thread glass bottles. Available in several colours. Sold in boxes of 6000

### CORKS FOR WINE BOTTLES

1+1 agglomerate cork which overcomes the problems of leakage, dust and breakage often encountered with less expensive natural corks. The body of the cork is made from agglomerated cork particles with a disc of natural cork at each end (similar to the structure of a champagne cork). We recommend that these corks are used for wine to be consumed within 18 months of corking . Sold in bags of 500.

Dimensions (Ø x H mm)	Stockcode
23.5 x 39.5	97416

### PLASTIC TOP STOPPER CORKS

For use with liqueurs, spirits, oils, vinegars etc., with 26mm diameter plastic flange, 19mm diameter cork stopper. Sold in cartons of 4000.

### CHAMPAGNE CORKS

Good quality corks, 48 x 30.5 mm, with two natural cork discs and agglomerate top. Branding available on larger orders.

Stockcode	97408

With metal cap	Natural corks	97461
Without cap	Plastic stoppers	97460

## CHAMPAGNE FOILS

Gold embossed poly laminate, available in several colours from stock. Other colours available to order.

## PVC SHRINK CAPSULES

We stock a wide range of good quality capsules for 750ml wine, juice and cider bottles and a limited range of a shorter size for 330ml or 250ml bottles. These PVC capsules are fitted loosely over the top of the bottle and then shrunk using a heat shrinker (see page 47). Please ask for our current sample pack of capsules. Over 30 colour and sizes usually available from stock.

Capsules can be made to customer's specifications, both in colour and size; please enquire.

## CROWN CAPS

### 29 mm champagne caps

Dimpled plastic cap insert avoids the need for bidules.

### 26mm caps for beer, cider and soft drinks

High quality caps available in a range of colours. Sample packs available on request.
