THE MANUCUBE

A simple and highly effective 15 litre plastic “bag-in-a-box” system for the storage and sale of cider or wine. The rigid maroon-coloured plastic case contains a durable, flexible plastic bag with airtight tap. As the wine/cider is drawn off the bag collapses completely, without any air getting in; beverages keep for several months without significant deterioration. The boxes have an indefinite life. The liner bags are good for several refills and can be easily replaced as necessary.

BAG-IN-BOX PACKAGING

Bag-in-box packaging provides a highly convenient and economical alternative to glass bottles. Advantages include:

- Convenience for consumer—and can lead to increased consumption
- Suitable for use by the catering trade and schools
- Reduced packaging storage
- Reduced distribution costs from lower packaging weight
- Reduced breakage costs during distribution
- Reduced packaging cost for larger volumes

Our boxes are designed for easy assembly without the need for sticky tape: the 3 and 5 litre sizes have ‘crashlock’ bases that snap into place and the 10 and 20 litre sizes have easy fold in bases and tops.

Suitable for cider and pasteurised apple juice.

For bag filling machines see page 41.
